PROFESSIONAL SUMMARY

Software Engineer with strong computer science fundamentals, Data Structures & Algorithms (DSA), and production backend engineering experience. Skilled in architecting low-latency asynchronous APIs, commercial digital products, and containerized microservices across Java, Python, C#, Node.js, and React. Certified Oracle Java SE 21 Developer with enterprise experience at Cognizant building RESTful services, automating Azure CI/CD pipelines, and enforcing 100% test coverage. Recognized with the Best Poster Award for deepfake detection research with a track record of delivering reliable software solutions.

TECHNICAL SKILLS

- Core Languages & DSA:** Java (SE 21), Python, C++, C#, JavaScript/TypeScript, SQL, Data Structures & Algorithms
Backend & Architecture: FastAPI, Node.js/Express, ASP.NET Core MVC, Spring Boot, RESTful APIs, JWT/RBAC, SOLID, OOP
Databases & Storage: PostgreSQL (Supabase), MySQL, SQL Server, MongoDB, SQLite, Redis
Frontend & Cloud/DevOps: React, Next.js, Tailwind CSS, Docker, Microsoft Azure, GitHub Actions (CI/CD), Git, Linux
Testing & Methodologies: Unit/Integration Testing (100% Coverage), NUnit, Moq, Postman, Swagger/OpenAPI, Agile/Scrum

EXPERIENCE

- Cognizant** Feb 2026 – May 2026
Software Engineering Intern Chennai, India
- Architected backend microservices and relational data access layers using ASP.NET Core MVC, EF Core, and SQL Server for enterprise platforms including the Farm Management System.
 - Implemented secure RESTful endpoints with stateless JWT authentication and Role-Based Access Control (RBAC), adhering strictly to SOLID design principles.
 - Automated CI/CD build and deployment workflows via GitHub Actions directly to Microsoft Azure cloud infrastructure.
 - Achieved 100% service-layer test coverage by developing comprehensive unit and integration test suites with NUnit and Moq ahead of each production release.

PROJECTS

- PrepIQ – AI Mock Interview Platform** | Python, FastAPI, React, SQLAlchemy, Gemini API, SQLite
- Architected an asynchronous FastAPI backend to manage user session state, authentication, and sub-second evaluation workflows.
 - Integrated Gemini AI REST APIs for dynamic response scoring, resume evaluation, and real-time structured telemetry extraction.
- PrepWise – Digital Learning & Commerce Platform** | React, Node.js, Express, REST APIs, Tailwind CSS
- Engineered an end-to-end commercial web platform to distribute curated technical interview preparation materials and cheat sheets.
 - Designed structured product catalog navigation, access control workflows, and automated digital asset delivery with secure download links.
- ORCare – Full-Stack Cloud Healthcare Platform** | Node.js, Express, React, PostgreSQL, Docker
- Constructed a modular Express backend concurrently serving React web and mobile clients, with role-based health record security.
 - Migrated transactional data to PostgreSQL (Supabase) and containerized application services using Docker for dev-to-production parity.

HONORS, RESEARCH & ACHIEVEMENTS

- Best Poster Award – Deepfake Video Detection Research:** Engineered deep learning algorithms analyzing facial feature vectors and temporal frame inconsistencies to identify synthetic media manipulation.
- TechStar Summit Delegate:** Selected as university delegate to engage in industry forums on scalable distributed systems, cloud architecture, and emerging GenAI ecosystems.
- Algorithmic Problem Solving:** Solved complex DSA problems across arrays, trees, dynamic programming, and graphs on competitive coding platforms; certified in HackerRank Advanced SQL and C#.

EDUCATION

- Saveetha Institute of Medical and Technical Sciences (SIMATS)** 2022 – 2026
Bachelor of Engineering in Computer Science and Engineering – CGPA: 8.83 / 10.0 Chennai, India
- Bhashyam Junior College** 2020 – 2022
Intermediate (MPC) – Aggregate: 97.3% Andhra Pradesh, India
- Bhashyam High School** 2020
Secondary School Certificate (SSC) – CGPA: 9.3 / 10.0 Andhra Pradesh, India

CERTIFICATIONS

- Oracle Certified Professional:** Java SE 21 Developer | **Oracle Certified:** AI Vector Search Professional
Google: IT Automation with Python | **Google:** Cybersecurity Professional | **Cisco:** Ethical Hacking Essentials
HackerRank: SQL (Advanced) Certificate | **HackerRank:** C# (Basic) Certificate
